S. No.	Features	MS Office	Google Office Suite
1	**Text Formatting**	Extensive styles, themes, fonts, layouts, and advanced formatting	Wide range of formatting tools, but fewer advanced layout options
2	**Table Creation**	Advanced tables with formulas, styles, sorting, and customization	Easy table creation with basic formatting and collaboration
3	**Real-Time collaboration**	Supports co-authoring through Microsoft 365 and OneDrive	Strong real-time collaboration with comments, suggestions, and version history
4	**Saving/exporting formats**	Supports DOCX, XLSX, PPTX, PDF, and many other formats	Uses Google formats; can export to DOCX, XLSX, PPTX, PDF, etc.
5	**Offline availability**	Full-featured offline functionality	Offline editing available, but requires prior setup and has some limitations
6	**Macro/automation support**	Powerful VBA macros, Office Scripts, and automation tools	Uses Google Apps Script; powerful but different from VBA and more cloud-oriented
